**ORDER:**

**(1) SCHEDULING  
TELEPHONIC CASE  
MANAGEMENT  
CONFERENCE FOR  
THURSDAY, NOVEMBER 6,  
2014 AT 2:00 P.M.**

**(2) ISSUING PROPOSED  
SCHEDULING ORDER**

1 vs.

2 EXCELSIOR MEDICAL  
3 CORPORATION; COVIDIEN LP; and  
4 COVIDIEN SALES, LLC,  
5 Defendants.

6  
7 On June 3, 2014, Plaintiffs Ivera Medical Corporation and Becton, Dickinson  
8 and Company (collectively, "Plaintiffs") filed a complaint for infringement of United  
9 States Patent No. 8,740,864 against Defendants Excelsior Medical Corporation,  
10 Covidien LP, and Covidien Sales, LLC (collectively, "Excelsior and Covidien"). (14-  
11 cv-1348-H-RBB] Doc. No. 1.) On the same day, Plaintiffs brought the same claim  
12 against Hospira, Inc. ("Hospira"). (14-cv-1345-H-RBB Doc. No. 1.) On the same day,  
13 Plaintiffs also brought the same claim against Catheter Connections, Inc. ("Catheter").  
14 (14-cv-1346-H-RBB, Doc. No. 1.)

15 On October 28, 2014, the parties<sup>1</sup> filed a joint motion to vacate the early neutral  
16 evaluation conference set for November 18, 2014. The parties request that the Court  
17 schedule a case management conference for December 22, 2014. (1348 Doc. No. 23.)  
18 The parties must contact the magistrate judge regarding scheduling the early neutral  
19 evaluation conferences.

20 After consulting with the parties, the Court schedules a telephonic case  
21 management conference for **November 6, 2014 at 2:00 p.m.** The Court directs the  
22 parties to provide the Court with telephone numbers before the conference. The  
23 Court will initiate the call. The parties should meet and confer pursuant to Federal  
24 Rule of Civil Procedure 26(f) before the case management conference.

25  
26 <sup>1</sup>Excelsior and Covidien filed the motion jointly with Plaintiffs. These parties  
27 represented that Plaintiffs would also file similar joint motions with Hospira and  
28 Catheter. (1348 Doc. No. 23 at 2.) Exercising its discretion, the Court issues this order  
setting the case management conference and scheduling pretrial dates for all of the  
above-captioned cases.

1 In advance of the hearing, the Court issues the following proposed scheduling  
2 order:

3 1. **Disclosure of Asserted Claims and Infringement Contentions.** On  
4 or before **November 20, 2014** Plaintiffs must serve on Defendants a “Disclosure of  
5 Asserted Claims and Infringement Contentions.” The “Disclosure of Asserted  
6 Claims and Infringement Contentions” must contain the following information:

7 a. Each claim of each patent in the suit that is allegedly infringed  
8 by Defendants;

9 b. Separately for each asserted claim, each of Defendants’ accused  
10 apparatus, product, device, process, method, act, or other instrumentality (“Accused  
11 Instrumentality”) of which the party is aware. This identification must be as  
12 specific as possible. Each product, device and apparatus must be identified by name  
13 or model number, if known. Each method or process must be identified by name, if  
14 known, or by any product, device, or apparatus which, when used, allegedly results  
15 in the practice of the claimed method or process;

16 c. A chart identifying specifically where each element of each  
17 asserted claim is found within each Accused Instrumentality, including for each  
18 element that such party contends is governed by 35 U.S.C. § 112(6), the identity of  
19 the structure(s), act(s), or material(s) in the Accused Instrumentality that performs  
20 the claimed function;

21 d. For each claim which is alleged to have been indirectly  
22 infringed, an identification of any direct infringement and a description of the acts  
23 of the alleged indirect infringer that contribute to or are inducing that direct  
24 infringement. Insofar as alleged direct infringement is based on joint acts of  
25 multiple parties, the role of each such party in the direct infringement must be  
26 described.

27 e. Whether each element of each asserted claim is claimed to be  
28 literally present and/or present under the doctrine of equivalents in the Accused

1 Instrumentality;

2 f. For any patent that claims priority to an earlier application, the  
3 priority date to which each asserted claim allegedly is entitled;

4 g. If a party claiming patent infringement asserts or wishes to  
5 preserve the right to rely, for any purpose, on the assertion that its own apparatus,  
6 product, device, process, method, act, or other instrumentality practices the claimed  
7 invention, the party must identify, separately for each asserted claim, each such  
8 apparatus, product, device, process, method, act, or other instrumentality that  
9 incorporates or reflects that particular claim; and

10 h. If a party claiming patent infringement alleges willful  
11 infringement, the basis for such allegation.

12 2. **Document Production Accompanying Disclosure.** With the  
13 “Disclosure of Asserted Claims and Infringement Contentions,” the party claiming  
14 patent infringement must produce to Defendants or make available for inspection  
15 and copying, the following documents in the possession, custody or control of that  
16 party:

17 a. Documents (e.g., contracts, purchase orders, invoices,  
18 advertisements, marketing materials, offer letters, beta site testing agreements, and  
19 third party or joint development agreements) sufficient to evidence each discussion  
20 with, disclosure to, or other manner of providing to a third party, or sale of or offer  
21 to sell, the claimed invention prior to the date of application for the patent in suit. A  
22 party’s production of a document as required within these rules does not constitute  
23 an admission that such document evidences or is prior art under 35 U.S.C. § 102;

24 b. All documents evidencing the conception, reduction to practice,  
25 design, and development of each claimed invention, which were created on or  
26 before the date of application for the patent in suit or the priority date identified  
27 pursuant to Patent L.R. 3.1(f), whichever is earlier;

28 c. A copy of the file history for each patent in suit and each

1 application to which a claim for priority is made under Patent L.R. 3.1(f);

2 d. Documents sufficient to evidence ownership of the patent rights  
3 by the party asserting patent infringement; and

4 e. If a party identifies instrumentalities pursuant to Patent L.R.  
5 3.1(g), documents sufficient to show the operation of any aspects or elements of  
6 such instrumentalities the patent claimant relies upon as embodying any asserted  
7 claims.

8 The producing party must separately identify by production number which  
9 documents correspond to each category. If the documents identified above are not  
10 in the possession, custody or control of the party charged with production, that party  
11 must use its best efforts to obtain all responsive documents and make a timely  
12 disclosure.

13 3. Any motion to join other parties, to amend the pleadings, or to file  
14 additional pleadings must be filed on or before **December 18, 2014**.

15 4. **Invalidity Contentions.** On or before **December 18, 2014**,  
16 Defendants must serve on all parties their “Invalidity Contentions” which must  
17 contain the following information:

18 a. The identity of each item of prior art that allegedly anticipates  
19 each asserted claim or renders it obvious. This includes information about any  
20 alleged knowledge or use of the invention in this country prior to the date of  
21 invention of the patent. Each prior art patent must be identified by its number,  
22 country of origin, and date of issue. Each prior art publication must be identified by  
23 its title, date of publication, and where feasible, author and publisher. Prior art  
24 under 35 U.S.C. § 102(b) must be identified by specifying the item offered for sale  
25 or publicly used or known, the date the offer or use took place or the information  
26 became known, and the identity of the person or entity that made the use or that  
27 made and received the offer, or the person or entity that made the information  
28 known or to whom it was made known. Prior art under 35 U.S.C. § 102(f) must be

1 identified by providing the name of the person(s) from whom and the circumstances  
2 under which the invention or any part of it was derived. Prior art under 35 U.S.C. §  
3 102(g) must be identified by providing the identities of the person(s) or entities  
4 involved in and the circumstances surrounding the making of the invention before  
5 the patent applicant(s);

6 b. Whether each item of prior art anticipates each asserted claim or  
7 renders it obvious. If obviousness is alleged, an explanation of why the prior art  
8 renders the asserted claim obvious, including an identification of any combinations  
9 of prior art showing obviousness;

10 c. A chart identifying where specifically in each alleged item of  
11 prior art each element of each asserted claim is found, including for each element  
12 that such party contends is governed by 35 U.S.C. § 112(6), the identity of the  
13 structure(s), act(s), or material(s) in each item of prior art that performs the claimed  
14 function;

15 d. Any grounds of invalidity based on indefiniteness under 35  
16 U.S.C. § 112(2) of any of the asserted claims; and

17 e. Any grounds of invalidity based on lack of written description,  
18 lack of enabling disclosure, or failure to describe the best mode under 35 U.S.C. §  
19 112(1).

20 5. **Document Production Accompanying Invalidity Contentions.** With  
21 the “Invalidity Contentions,” the party opposing a claim of patent infringement must  
22 produce or make available for inspection and copying:

23 a. Source code, specifications, schematics, flow charts, artwork,  
24 formulas, or other documentation sufficient to show the operation of any aspects or  
25 elements of any Accused Instrumentality identified by the patent claimant in its  
26 Patent L.R. 3.1(c) chart; and

27 b. A copy of each item of prior art identified pursuant to Patent  
28 L.R. 3.3(a) which does not appear in the file history of the patent(s) at issue. To the

1 extent any such item is not in English, the party opposing infringement must  
2 produce an English translation of the portion(s) relied upon.

3       6.     **Invalidity Contentions If No Claim Of Infringement.** In all cases in  
4 which a party files a complaint or other pleading seeking a declaratory judgment  
5 that a patent is not infringed, is invalid, or is unenforceable, Patent L.R. 3.1 and 3.2  
6 will not apply unless and until a party makes a claim for patent infringement. If the  
7 Defendants do not assert a claim for patent infringement in answer to the complaint,  
8 no later than fourteen (14) days after the Initial Case Management Conference,  
9 **November 20, 2014**, the party seeking a declaratory judgment must serve upon each  
10 opposing party Invalidity Contentions that conform to Patent L.R. 3.3 and produce  
11 or make available for inspection and copying the documents described in Patent  
12 L.R. 3.4.

13       7.     **Exchange of Preliminary Claim Construction and Extrinsic**  
14 **Evidence.**

15             a.     On or before **January 5, 2015**, the parties will simultaneously  
16 exchange a preliminary proposed construction of each claim term, phrase, or clause  
17 which the parties have identified for claim construction purposes. Each such  
18 “Preliminary Claim Constructions” will also, for each element which any party  
19 contends is governed by 35 U.S.C. § 112(6), identify the structure(s), act(s), or  
20 material(s) described in the specification corresponding to that element.

21             b.     Simultaneously with exchange of the “Preliminary Claim  
22 Constructions,” the parties must also provide a preliminary identification of  
23 extrinsic evidence, including without limitation, dictionary definitions, citations to  
24 learned treatises and prior art, and testimony of percipient and expert witnesses they  
25 contend support their respective claim constructions. The parties must identify each  
26 such item of extrinsic evidence by production number or produce a copy of any  
27 such item not previously produced. With respect to any such witness, percipient or  
28 expert, the parties must also provide a brief description of the substance of that

1 witness's proposed testimony.

2 c. On or before **January 12, 2015**, the parties will simultaneously  
3 exchange "Responsive Claim Constructions" identifying whether the responding  
4 party agrees with the other party's proposed construction, or identifying an alternate  
5 construction in the responding party's preliminary construction, or setting forth the  
6 responding party's alternate construction.

7 d. Simultaneous with exchange of the "Responsive Claim  
8 Constructions" pursuant to Patent L.R. 4.1(c), the parties must also provide a  
9 preliminary identification of extrinsic evidence, including without limitation,  
10 dictionary definitions, citations to learned treatises and prior art, and testimony of  
11 percipient and expert witnesses they contend support any responsive claim  
12 constructions. The parties must identify each such item of extrinsic evidence by  
13 production number or produce a copy of any such item not previously produced.  
14 With respect to any such witness, percipient or expert, the parties must also provide  
15 a brief description of the substance of that witness's proposed testimony.

16 e. The parties must thereafter meet and confer for the purposes of  
17 narrowing the issues and finalizing preparation of a Joint Claim Construction Chart,  
18 Worksheet and Hearing Statement.

19 **8. Joint Claim Construction Chart, Worksheet, and Hearing**

20 **Statement.** On or before **January 26, 2015**, the parties must complete and file a  
21 Joint Claim Construction Chart, Joint Claim Construction Worksheet, and Joint  
22 Hearing Statement.

23 a. The Joint Hearing Statement must included an identification of  
24 the terms whose construction will be most significant to the resolution of the case  
25 up to a maximum of ten (10) terms. The parties must also identify any term among  
26 the ten (10) whose construction will be case or claim dispositive. If the parties  
27 cannot agree on the ten (10) most significant terms, the parties must identify ones  
28 which they do agree are most significant and then they may evenly divide the

1 remainder with each party identifying what it believes are the remaining most  
2 significant terms. However, the total terms identified by all parties as most  
3 significant cannot exceed ten (10). For example, in a case involving two (2) parties  
4 if the parties agree upon the identification of five (5) terms as most significant, each  
5 may only identify two (2) additional terms as most significant; if the parties agree  
6 upon eight (8) such terms, each party may only identify only one (1) additional term  
7 as most significant.

8           b.     The Joint Claim Construction Chart must have a column listing  
9 complete language of disputed claims with the disputed terms in bold type and  
10 separate columns for each party's proposed construction of each disputed term.  
11 Each party's proposed construction of each disputed claim term, phrase, or clause,  
12 must identify all references from the specification or prosecution history that  
13 support that construction, and identify any extrinsic evidence known to the party on  
14 which it intends to rely either to support its proposed construction of the claim or to  
15 oppose any party's proposed construction of the claim, including, but not limited to,  
16 as permitted by law, dictionary definitions, citations to learned treatises and prior  
17 art, and testimony of percipient and expert witnesses. For every claim with a  
18 disputed term, each party must identify with specificity the impact of the proposed  
19 constructions on the merits of the case.

20           c.     The parties' Joint Claim Construction Worksheet must be in the  
21 format set forth in Appendix A of the Patent L.R. and include any proposed  
22 constructions to which the parties agree, as well as those in dispute. The parties  
23 must jointly submit the Joint Claim Construction Worksheet to Judge Huff's e-file  
24 inbox in both Word and WordPerfect format or in such other format as the Court  
25 may direct.

26           d.     The Joint Hearing Statement must include:

- 27                   1.     The anticipated length of time necessary for the Claim  
28                           Construction Hearing;

2. Whether any party proposes to call one or more witnesses, including experts, at the Claim Construction Hearing, the identity of each such witness, and for each expert, a summary of each opinion to be offered in sufficient detail to permit a meaningful deposition of that expert; and

3. The order of presentation at the Claim Construction Hearing.

e. At the Court's discretion, within seven (7) days of the submission of the Joint Claim Construction Chart, Joint Claim Construction Worksheet and Joint Hearing Statement, the Court will hold a status conference with the parties, in person or by telephone, to discuss scheduling, witnesses and any other matters regarding the Claim Construction Hearing.

9. **Amended and Final Contentions.**<sup>2</sup>

a. As a matter of right, a party asserting infringement may serve Amended Infringement Contentions no later than the filing of the parties' Joint Claim Construction Chart, **January 26, 2015**. Thereafter, absent undue prejudice to the opposing party, a party asserting infringement may only amend its infringement contentions:

1. If, not later than thirty (30) days after service of the court's Claim Construction Ruling, the party asserting infringement believes in good faith that amendment is necessitated by a claim construction that differs from that proposed by such party; or

2. upon a timely motion showing good cause.

b. As a matter of right, a party opposing a claim of patent infringement may serve "Amended Invalidity Contentions" no later than the completion of claim construction discovery, **February 2, 2015**. Thereafter, absent undue prejudice to the opposing party, a party opposing infringement may only

---

<sup>2</sup> This rule does not relieve any party from its obligations under Fed. R. Civ. P. 26 to timely supplement disclosures and discovery responses.

1 amend its invalidity contentions:

2 1. if a party claiming patent infringement has served  
3 “Amended Infringement Contentions,” and the party opposing a claim of patent  
4 infringement believes in good faith that the Amended Infringement Contentions so  
5 require;

6 2. if, not later than fifty (50) days after service of the Court’s  
7 Claim Construction Ruling, the party opposing infringement believes in good faith  
8 that amendment is necessitated by a claim construction that differs from that  
9 proposed by such party; or

10 3. upon a timely motion showing good cause.

11 10. **Completion of Claim Construction Discovery.** On February 2,  
12 2015, the parties must complete all discovery, including depositions of any  
13 percipient or expert witnesses, that they intend to use in the Claim Construction  
14 Hearing. Federal Rule of Civil Procedure 30 applies to depositions taken pursuant  
15 to Patent L.R. 4.3, except as to experts. An expert witness identified in a party’s  
16 Joint Hearing Statement pursuant to Patent L.R. 4.2(d) may be deposed on claim  
17 construction issues. The identification of an expert witness in the Joint Hearing  
18 Statement may be deemed good cause for a further deposition on all substantive  
19 issues.

20 11. **Claim Construction Briefs.**

21 a. On February 16, 2015, the parties will simultaneously file and  
22 serve opening briefs and any evidence supporting their claim construction.

23 b. On February 23, 2015, the parties will simultaneously file and  
24 serve briefs responsive to the opposing party’s opening brief and any evidence  
25 directly rebutting the supporting evidence contained in the opposing party’s opening  
26 brief.

27 12. **Claim Construction Hearing.** On March 13, 2015 at 9:00 a.m., the  
28 Honorable Marilyn L. Huff will conduct a Claim Construction Hearing in San

1 Diego, CA.

2 13. **Advice of Counsel.** Not later than thirty (30) days after the filing of  
3 the Claim Construction Order, each party relying upon advice of counsel as part of a  
4 patent-related claim or defense for any reason must:

5 a. Produce or make available for inspection and copying the  
6 opinion(s) and any other documentation relating to the opinion(s) as to which that  
7 party agrees the attorney-client or work product protection has been waived;

8 b. Provide a written summary of any oral advice and produce or  
9 make available for inspection and copying that summary and documents related  
10 thereto for which the attorney-client and work product protection have been waived;  
11 and

12 c. Serve a privilege log identifying any other documents, except  
13 those authored by counsel acting solely as trial counsel, relating to the subject  
14 matter of the opinion(s) which the party is withholding on the grounds of  
15 attorney-client privilege or work product protection.

16 A party who does not comply with the requirements of Patent L.R. 3.7 will  
17 not be permitted to rely on advice of counsel for any purpose, absent a stipulation of  
18 all parties or by order of the court, which will be entered only upon showing of  
19 good cause.

20 14. On or before **January 2, 2015**, all parties must exchange with all other  
21 parties a list of all expert witnesses expected to be called at trial. The list must  
22 include the name, address, and telephone number of the expert and a brief statement  
23 identifying the subject areas as to which the expert is expected to testify. The list  
24 must also include the normal rates the expert charges for deposition and trial  
25 testimony. The list must include non-retained testifying experts. On or before  
26 **January 9, 2015**, any party may supplement its designation in response to any other  
27 party's designation so long as that party has not previously retained an expert to  
28 testify on that subject.

1        15. Each expert witness designated by a party must prepare a written report  
2 to be provided to all other parties no later than **January 23, 2015** containing the  
3 information required by Fed. R. Civ. P. 26(a)(2)(A) and (B). Except as provided in  
4 paragraph 16 below, any party that fails to make these disclosures must not, absent  
5 substantial justification, be permitted to use evidence or testimony not disclosed at  
6 any hearing or at the time of trial. In addition, the Court may impose sanctions as  
7 permitted by Fed. R. Civ. P. 37.

8        16. Any party, through any expert designated, must in accordance with  
9 Fed. R. Civ. P. 26(a)(2)(D) and Fed. R. Civ. P. 26(e)(2), supplement any of its  
10 expert reports regarding evidence intended solely to contradict or rebut evidence on  
11 the same subject matter identified in an expert report submitted by another party.  
12 Any such supplemental reports are due on or before **February 20, 2015**.

13        17. All fact discovery must be completed on or before **January 23, 2015**.  
14 All expert discovery must be completed on or before **February 27, 2015**.  
15 “Completed” means that all discovery under Rules 30-36 of the Federal Rules of  
16 Civil Procedure must be initiated a sufficient period of time in advance of the  
17 cut-off date, so that it may be completed by the cut-off date, taking into account the  
18 times for services, notice, and response as set forth in the Federal Rules of Civil  
19 Procedure.

20        18. All motions, including motions addressing Daubert issues but  
21 excluding earlier motions to amend or join parties and later motions in limine, must  
22 be filed to be heard on or before **May 18, 2015**. Motions will not be heard or  
23 calendared unless counsel for the moving party has obtained a motion hearing date  
24 from the law clerk of the judge who will hear the motion. Be advised that the  
25 parties must file their moving papers within 24 hours of receiving the motion  
26 hearing date from the Court. Failure to timely request a motion date may result in  
27 the motion not being heard. Motions will not be heard unless you have obtained a  
28 date from the judge’s law clerk.

1 Briefs or memoranda in support of or in opposition to any pending motion  
2 must not exceed twenty-five (25) pages in length without permission of the judge  
3 who will hear the motion. No reply memorandum may exceed ten (10) pages  
4 without leave of the judge who will hear the motion.

5 19. The parties must conduct a settlement conference in accordance with  
6 Patent L.R. 2.1(c). The parties must contact the magistrate judge assigned to this  
7 case to arrange a date for the settlement conference.

8 20. Counsel must file their Memoranda of Contentions of Fact and Law in  
9 compliance with Civ. L.R. 16.1(f)(2) on or before **June 5, 2015**.

10 21. Counsel must comply with the pre-trial disclosure requirements of  
11 Federal Rule of Civil Procedure 26(a)(3) on or before **June 5, 2015**. Failure to  
12 comply with these disclosure requirements could result in evidence preclusion or  
13 other sanctions under Federal Rule of Civil Procedure 37.

14 22. Counsel must meet together and take the action required by Civ. L.R.  
15 16.1(f)(4) on or before **June 12, 2015**. At this meeting, counsel must discuss and  
16 attempt to enter into stipulations and agreements resulting in simplification of the  
17 triable issues. Counsel must exchange copies and/or display all exhibits and  
18 demonstratives excluding those to be used for impeachment. The exhibits must be  
19 prepared in accordance with Civ. L.R. 16.1(f)(4)(c). Counsel will note any  
20 objections they have to any other parties' Pretrial Disclosures under FRCP 26(a)(3).  
21 Counsel will cooperate in the preparation of the proposed pretrial conference order.

22 23. Counsel for Plaintiffs will be responsible for preparing the proposed  
23 pretrial order in accordance with Civ. L.R. 16.1(f)(6)(a). On or before **June 9, 2015**  
24 Plaintiffs' counsel must provide opposing counsel with the proposed pretrial order  
25 for review and approval. Opposing counsel must communicate promptly with  
26 Plaintiffs' attorney concerning any objections to form or content of the pretrial  
27 order, and both parties must attempt promptly to resolve their differences, if any,  
28 concerning the order.

1           24. The Proposed Final Pretrial Conference Order, including objections to  
2 any other parties' Federal Rule of Civil Procedure 26(a)(3) Pretrial Disclosures must  
3 be served and emailed to the District Judge's e-file inbox on or before **June 16,**
